Dear Mr. Lederberg:

Thanks for the clippings of Khe Sanh.

No, I have not yet spoken to Robert MacNamara, but plan to do so later on. We are deeply into the incident, which is proving to be a truly fascinating one. For example, did you know that Khe Sanh was one of the few, one of the very, very few significant targets not attacked during the Tet offensive? The latter occurred within a few weeks of the purported nuclear threat; interesting, no?

I'll send a draft of our report to you once it is completed. Thanks again.

Yours truly,

Barry M. Blechman
